Description

The Boston Whaler 345 Conquest is a perfect marriage of fishing machine and family cruiser, with amenities that rival many luxury oriented family cruisers in this size range.

The hull features the safety and performance reputation that Boston Whaler is known for, including flotation in the upright position when scuttled. And the ride, is outstanding, providing a level of comfort and confidence in demanding sea conditions.

For the family, there is plenty of seating in the cockpit, facing in multiple directions, and the high freeboard ads an additional level of confidence with the kids on board.

For the fisherman, there are plenty of rod holders, lots of storage, and a wide open aft deck for fighting fish offshore. There is a 45 gallon live-well on the transom and the aft cockpit seating folds up against the gunwale when not in use for passengers. The tackle station features an innovative foot rest when seated in the aft facing position over the rear deck.

The helm is well appointed with Raymarine electronics, fly by wire engine controls featuring JPO (joystick) and Mercury Active Trim. Trim tabs hep level the ride for load and varying sea conditions.

The open array radar keeps you aware of what's around you, and the multi function displays keep all of the information right where you need it.

On the bow, there are lounging pads, and secondary controls for the windlass.

On the hard top, a remote spotlight, the radar, and out-riggers are on the top, and on the inside is a beautifully finished off piece, with hatches, lights, speakers and more helm controls for the drive.

Moving down to the cabin, the appointments are outstanding. Lots of rod holders on the starboard side, just below the electronics cabinet with all of the AC and DC controls, including generator and shore-power. In the bow is a roomy seating and dining area that converts to a forward birth.

On the port side is the galley area, featuring a fridge, microwave and a spacious counter-top. Continuing to the aft is the head, and below the helm station is the full size birth.

This is a low hour, very well maintained boat, and it is available by appointment at the Haulover Marine Center.

Saltwater Sportsman Review

Fishing Boat Review: Boston Whaler 345 Conquest

The company’s latest walkaround is full of innovative surprises.

- By Capt. Dave Lear

July 1, 2014 Replacing a proven model in a company lineup is no easy task. The replacement must have enough changes to entice new buyers as well as current owners without compromising the traits that made the original a success. Extensive research and thoughtful designs achieve that balance. Boston Whaler is one of the best in the business at pulling all this off, especially evident in the new Conquest. With construction as solid as Stone Mountain, practical fishing features, and more whiz-bang innovation than Silicon Valley, the **345 **relaunch makes a lasting impression.
