## Description

Once Again Fountain raises the performance bar to unbelievable heights with our new 38' Lightning. Our latest technological breakthrough integrates Generation III Super Ventilated Positive Lift. A hull design, perfectly tuned to our pad keel, notched transom, improved air induction systems, and the precise combination of step location and angles of attack has made our 38 untouchable. In fact, it is now four mph faster than our earlier model, with improved handling and acceleration.

And this model is the staggered version, for a balanced CG and even more of an increase in performance.

Plush, leather-touch cabin seating and carpeting, stainless steel hardware and top-notch instrumentation are just some of the details that put the 38 Lightning into a league of its own. The 38 also comes standard with a color coordinated dash, throttles, bezels and wheel. A lightning bolt engine hatch and your choice of several standard graphic designs are also available. This rocket sled also ruled the Factory II racing Circuit. If you want to get the most bang for your buck the 38 Lightning won't let you down.

With the 496HO package, you have fresh-water cooling and ultra reliable power that has significantly lower maintenance costs.

- Latham Hydraulic Steering
- K-Planes
- Garmin GPS
- Fusion Stereo, with subs and t-stations
- Docking Lights
- Mirrored Engine Hatch
- iPad Connection
- Cabin Fans
- Uniden VHF Radio
