Description

The Fountain 38 Lightning Stagger is the next evolution of the pleasure version of this World Champion Offshore and World Record Setting v-bottom legend. With the semi-staggered configuration of the engines, the CG is moved off of the transom AND the drive centers are brought closer together. This allows for a higher overall x-dimension, increasing cruise and top end performance. With the CG off the transom, the balance is also improved for rough water operation.

The top ends were just done on the motors - ZERO HOURS. The transom has also been done on the boat. Total hours are just over 500 on the boat.

Fresh work includes:

1. NEW CMI Gen X Headers
2. Lifters
3. Rockers
4. Heads completely gone thru
5. Springs, locks, retainers, seals
6. All closed loop coolant hoses
7. Recirculating pumps
8. All maintenance. Raw water pumps, oil change, filters, both fuel filters & drive oil.

The cockpit is in great shape, with additional LED lightning throughout.

This boat is DRY with fresh engines, including new CMI headers on an aluminum Myco Trailer.

The boat is located just across the US border in Richmond, Canada, so viewing for US customers is not a huge challenge.

Information & Features

2005 Mercury 525 EFI w/ XR drives (Engine 1)

Engine Type:	Inboard/Outboard	Drive Type:	Stern Drive	Propeller Material:	Stainless Steel

- Cockpit Cover

Electrical Equipment

- Shore Power Inlet

Manufacturer Provided Description

The Fountain 38 Lightning with integrated Generation III Super Ventilated Positive Lift. A hull design, perfectly tuned to our pad keel, notched transom, improved air induction systems, and the precise combination of step location and angles of attack has made our 38 untouchable. In fact, it is now four mph faster than our earlier model, with improved handling and acceleration. Reach eye watering speeds in excess of 88 MPH with 525 EFI's. Plush, leather-touch cabin seating and carpeting, stainless steel hardware and top-notch instrumentation are just some of the details that put the 38 Lightning into a league of its own. The 38 also comes standard with a color coordinated dash, throttles, bezels and wheel. A lightning bolt engine hatch and your choice of several standard graphic designs are also available.
