Description

This is a 2000 Fountain 29 Fever with a professionally built 540 big block Chevrolet, with a dart block, brodix heads, top shelf reciprocating assembly, and strong top end. Everything on the engine was replaced new. Engine build receipts are available for review as part of a buyer's due diligence.

It is a carbureted engine, that idles smoothly, accelerated with punch, lots of mid-range and tons of potential on the top end.

The transom has been replaced on the boat, so moisture should be no issue...

There are less than 200 hours on the new engine, and 700 total on the hull.

The 29 Fever is an easily trailered offshore boat, suitable for the ocean or local lakes.

The interior looks great, and the overall condition of the boat is strong. It is ready for immediate delivery. A sea trial is available upon a contingent accepted offer & deposit.

The seller is moving across the country, and needs to have the boat sold before the move, so it is 100% priced to sell. You would be hard pressed to find a comparable 29 Fountain anywhere near this price.

Manufacturer Provided Description

The 29' runs over 72+ mph with an affordable, reliable and economical-to-operate 500 EFI. Perfectly balanced, the boat planes quickly and you can anticipate eye-watering throttle response throughout the entire performance curve. The perfect mix, the 29' is nimble enough for lakes and solid enough for offshore use.

Engine Notes

The engine is a DART block, Brodix heads BBC, stroked to 540 CID built with everything new in the summer of 2020. Receipts are available for the professional build.

The boat runs strong and the motor is smooth and powerful.
