## Description

The high-end center console market is VERY competitive, with several manufacturers that have risen to above the rest. The Mystic M3800 is one of those premium boats that stands out.

State of the art manufacturing, with composite construction like their world record setting catamarans.

The construction gives a solid ride in any conditions, and it is built to hold up to years in the offshore environment.

The design is built around the smooth ride, that is dry and not windy. Running the boat at speed, the occupants have a comfortable ride where you can still carry on a conversation and hear the stereo.

The fit and finish are exceptional, with all of the amenities that you expect on a premium center console, including comfortable seating, ergonomically laid out helm, a high freeboard, and a cabin that features a queen size bed, and has 6'8" of headroom.

And then there is the performance... The M3800 performs at levels where other manufacturers need more horsepower to keep up.

And finally, the paint finish on the M3800 – Gorgeous!

This 2020 has 235 hours, with transferrable warranty.

## Information & Features

### 2020 Mercury Verado (Engine 1)

Type:	<b>Outboard</b>	Power:	<b>300 hp</b>
Fuel Type:	<b>Gas/Petrol</b>	Propeller Type:	<b>4 Blade</b>

- Bow Thruster
- Microwave Oven
- Marine Head
- Air Conditioning
- Refrigerator
- Battery Charger

## **Outside Equipment/Extras**

- Teak Cockpit: Synthetic
- Cockpit Shower
- Cockpit Cushions
- Swimming Ladder

## Manufacturer Provided Description

The Mystic M3800 Center Console was built for a safe and dry ride in mind. The infused epoxy, carbon reinforced is the first of its kind. With a deep freeboard of up to 33", the boat is very dry in rough conditions and gives the owner and guest a great feeling of security. With our reverse chine, our center console is proven to be dry on typically wet days. With wind reduction being important to all consumers, we have addressed that with a 60" wide helm with comfortable and secure seating for three adults. Our gunnel wind doors protect wind and spray from going to the rear cockpit areas of the boat on windy, wet and cool days. All seating material and heights are configured for comfort while using 45-70 pound density foams conformed for the body. Safety systems are top notch and the luxurious cabin welcomes passengers with nice finishes and well-designed lighting.

## Features
