Description

This is an immaculate FRESHWATER 35 Lightning, with FRESH Mercury Racing 500EFI power that has been professionally ProCharged

The engine compartment is spotless, and the ProCharger installation looks amazing, including the high-volume fuel pumps to insure exceptional fuel delivery to make exceptional reliable horsepower.

The boat has lived on Lake Tahoe it's entire life, with the occasional trip to Lake Havasu, Arizona for Desert Storm, or cruising the Sacramento Delta.

The cabin looks like it has never been used, all of the powder-coating throughout the boat has been re-done, and the cockpit interior looks amazing.

Upgraded stereo, Vacu-Flush head, Livorsi GPS Speedo, and the boat sits on a 2021 Custom Manning tri-axle trailer.

You would be hard pressed to find a nicer example of the iconic 35 Fountain, with eye-watering performance at the altitude of Lake Tahoe, and even more so at sea-level.

The engines and drives were just gone through, including new XR gears in the drives. Invoices for all of the service work are available as part of your due-diligence process, and the seller is having a survey done as well that will be made available.

It you are looking for a DRY Freshwater Fountain, with amazing reliable power, look no further.
