Description

LOOKING FOR ALL OFFERS!

The Nor-Tech 3600 Supercat is an awesome mix of performance and amenities that are rare in today's offshore catamaran market.

The 3600 has outstanding performance, especially with the 1200 hp ATECO big blocks, a well appointed cockpit with the ability to swap steering from either side for driver/throttleman operation, and a cabin with a queen size bed and a head.

The engines were just gone through, with dyno time and 15 hours since complete rebuilds.

The boat also features drive-sync and fresh Ban 1300 transmissions.

The entire engine compartment was re-rigged in 2021.

An insurance survey is available as part of your due diligence.

This boat is ready for the poker run season!
