Description

This is a Formula 382 FASTech that was Formula's FEATURE boat in their Miami Boat Show booth, and was a magazine cover boat.

It is a 1-of-2 build in the "Poker Run" configuration, with 4 drop-down bolster seating and the powerful Mercury Racing 600SCi engine package.

The boat runs into the 90's, on motors that just had complete top-ends done within the last 5-hours of operation.

One new sterndrive, and the other completely gone through bring this already low hour boat to like new performance and reliability.

The only observable "shortcoming" is some fading on the deck graphic paint, and the rest of the graphics look excellent.

The interior, both cabin and cockpit are outstanding, and the quad bolster give the boat an aggressive look that will keep the occupants secure while pounding through choppy water in the next poker-run.

The stereo system has been completely upgraded, and the boat also includes a full "Racing Communications" intercom system with 4-headsets.

The seller is getting ready to take delivery of a new center console, so he is reluctantly letting go of one of his favorite go-fast boats. This boat will make a great statement at the poker runs or at your local marina.

The boat is available for showing by appointment only.
