Description

100% Freshwater boat set up for sea-level performance on Lake Tahoe, with Whipples set up by Teague Custom Marine, and top-ends done 75-hours ago.

Stage 3 Cams, lifters and valves.

The boat is not set-up for big top end speeds at sea-level, but can be propped accordingly for eye watering sea-level performance.

The staggered configuration improves the balance on the boat, and gets the drives higher on the transom for improved performance as well.

The graphic is a wrap and can be replaced easily.

Give us a call to check out this awesome 38 Lightning!
